WORK EXPERIENCE

Webnique Digital Solutions Pvt Ltd —

Python Developer Intern **| SEP 2024 –** Present
- Developed scalable web applications using Python, Django, and FastAPI, optimizing backend performance.
- Integrated RESTful APIs and managed PostgreSQL databases for seamless data flow.
- Collaborated with frontend teams on React.js integration and followed agile practices with Git.
- Ensured production-ready code through debugging, testing, and troubleshooting.

Vaaradi Web & IT Services —

.Net Developer Intern **| July 2024 – March 2025**
- Developed responsive web apps with .NET and Blazor, enhancing cross-platform performance.
- Implemented role-based authentication and integrated APIs with PostgreSQL.
- Reduced client-reported issues by 40% through troubleshooting critical bugs and optimizing performance.
- Led unit/integration testing, and delivered feature demos to clients and stakeholders.

PROJECTS

HRMS WEBSITE:

Technologies: **Python, Django REST Framework, React.js, PostgreSQL, Celery, Redis**

Description:

Developed a comprehensive Human Resource Management System (HRMS) to streamline employee management processes, including authentication, document generation, and payroll management. The platform supports multiple user roles (Employee, HR, Admin) with tailored functionalities, and uses background task processing for efficient handling of non-blocking operations.

Key Features:

- **User Authentication:** Secure login and access management for employees, HR personnel, and administrators.
- **Employee Management:** Admin and HR modules to manage employee details, including profiles, roles, and statuses.
- **Document Generation:** Automated generation of official documents like relieving letters, offer letters, salary hikes, and more.
- **Responsive UI:** Built an interactive, user-friendly interface using React.js, ensuring a seamless experience across devices.

AWARDS & ACHIEVEMENTS

- **TCS NQT (June 2024):** Secured **84%**, demonstrating strong aptitude and technical skills.
- **Hackathon Runner-Up (April 2023):** Achieved **2nd place** in a Hackathon conducted by **Siddhartha Institute**, showcasing problem-solving and teamwork under pressure.
